

About Me

It's all started with print("Hello World") and now UI UX. Being an UI UX designer my motive is to provide best user interface and experience to the users and following new trends, this is one of the reasons why I invest my time on meetups everything related to design talking to people in general, as always can be an opportunity to learn something new.I see it as a chance to improve myself as a professional and put things in practice when I'm creating my solutions.

LIFE STORY

PROJECTS

Food Ordering App
Adobe XD, Adobe Photoshop, Adobe Illustrator

By taking care of all points decided to design an application where user find restaurant near and order food online. While designing I focused more on user experience making it simple and comprehensible.

Glassmorphism - Microsoft products
Adobe XD, Adobe Photoshop

The new design trend used by Apple and Microsoft in 2021 so decided to design Glassmorphism for Microsoft Products to follow the trend.
